

# Lean Process Improvement

Lean principles have come a long way over the past 300 years. From Benjamin Franklin's early ideas, to Henry Ford's work in the 1920's and the Toyota precepts in the 1930's, to Jeffery Liker's publication of *The Toyota Way* in 2004, Lean processes have evolved from a simple concept to a set of widely used best practices. This course will give participants the foundation to begin implementing Lean process improvement tools in their workplace.
