

Planning for Workplace Safety

Beginning with the Organizational Safety Policy, the company's Safety Plan shows that Senior Management takes the commitment to worker health and safety seriously. The safety plan provides a system of policies, procedures and practices to help prevent accidents/incidents, gives workers the knowledge to help them create a safe working environment and outlines a consistent methodology for the company's approach to Health and Safety. It is one of the more important safety documents that a company can produce.

This course will give you the foundation to develop your Organizational Safety Plan and take the next step in building your safety culture.
