

Workplace Health and Safety

This course aims to provide an understanding of the supervisor's role in organizational health and safety. It will explore the requirements of due diligence, the rights of workers, supervisor and worker health and safety requirements, employee competency, and the role of Health and Safety Committees. The course will also look at supervisor's roles in hazard identification and control, accident reporting and investigation and the importance of communicating health and safety information.

This course will highlight the most important aspects of the supervisor's role so that they can participate effectively in health and safety responsibilities and work towards the continual improvement of health and safety performance in their organization.
