

Logistics and Supply Chain Management

Online Short Course Diploma (6 months)

The supply chain is a crucial part of any business' success. Optimizing the flow of products and services as they are planned, sourced, made, delivered, and returned can give your business an extra competitive edge. This course will discuss the concepts of supply chain management, including the flow, core models, supply chain drivers, key metrics, benchmarking techniques, and ideas for taking your supply chain to the next level.
